

Imagination Music is an early childhood music and movement program designed to inspire creativity and confidence in your child. Explore familiar tunes and learn some new ones in this ten week music class.

Each weekly structured class includes activities such as singing, finger play, music listening/recognition, and rhythm instruments. These fun musical games are all centered around kids' natural curiosity and creativity. Active participation in music learning positively impacts a child's body, mind, and spirit. Early childhood music education has been shown to affect the brain in numerous areas, including language development, spatial reasoning, and social skills. Come have fun with us as we journey through the possibilities with **Imagination Music!**

Nancy Linder has been teaching and making music in the Madison area for over fifteen years. She earned a Bachelor of Music degree from Wartburg College and a Master of Music degree from UW Madison. She currently teaches piano lessons in her home and enjoys playing regularly as a collaborative pianist in and around Madison.

Over the years she has directed and worked with several children's choirs. Nancy is a busy mom of five but always makes time to share her love of music with others. She especially loves teaching young children and is so excited to start this new adventure with **Imagination Music at Kehl School of Dance!**
